

FP In JavaScript

Anonymous functions, using
Lambda Expressions

```
TS program.ts

function addFive(n: number) {
  return n + 5
}

const addTen = runTwice(addFive);
const twelve = addTen(2);
```

```
TS program.ts

const addTen = runTwice(function (n: number) {
  return n + 5;
});
```

```
TS program.ts

const addTen = runTwice((n: number) => n + 5);
```
